

**Welcome address to participants and organisers of the RosBuild
2020 International Exhibition for Building & Finishing Materials and
Technologies**

On behalf of the Committee on Entrepreneurship in the Construction Sector of the Russian Chamber of Commerce and Industry, I would like to welcome the participants and organisers of the RosBuild 2020 International Exhibition for Building & Finishing Materials and Technologies!

The construction industry is one of the key sectors of the Russian economy and boosts its growth. The implementation of strategic tasks related to housing and infrastructure construction and the industry's innovative development, all envisaged in the Development Strategy of the Construction Industry up to 2030, is made possible by the production of advanced building material and machinery of high quality and the introduction of the latest technologies.

RosBuild 2020 is an effective platform to demonstrate advancements in the construction industry. The show creates a perfect environment for networking of representatives of the authorities, the public, research communities and manufacturers of construction products and machinery.

There is no doubt that many supporting events and activities will encourage a fruitful exchange of professional experience, and the decisions made during the Week will promote development of the construction industry.

I would like to wish all of you fruitful work, interesting discussions and achievement of all goals!

Efim Basin
Chairman
Committee on Entrepreneurship in the Construction Sector
Russian Chamber of Commerce and Industry
