

Welcome address

Dear participants and organisers of the RosBuild International Exhibition for Building & Finishing Materials and Technologies, on behalf of the Russian Union of Builders I am happy to welcome you to EXPOCENTRE!

I'm happy to see that there is a unique state-of-the-art venue working in this country – EXPOCENTRE Fairgrounds. It shows us the latest achievements in many industries including the construction industry, which is a focal point of the RosBuild project.

RosBuild is a showcase of the competitive potential of Russian manufacturers of construction related products and equipment of high quality. It introduces innovative construction technologies and helps to improve consumer satisfaction.

I am positive that various events and activities of RosBuild 2020 will facilitate constructive discussions between representatives of the authorities, the public, Russian research communities and manufacturers on all issues related to the development and transformation of the Russian construction industry and improvement of the industry's image.

I would like to wish the participants and organisers fruitful work and every success!

Vladimir Yakovlev
President
Russian Union of Builders
